POCPro

Transactional, Tech-enabled Proof Of Claim (POC) Preparation

Compliant, efficient, and affordable solution for POC management

The POC 410A forms are now a common requirement of the process and with one bankruptcy file containing 200 data elements or more, firms are challenged to complete them quickly and accurately.

With POCPro your team is freed from manual data entry, enabling you to reallocate valuable resources and minimize costly errors. POCPro is a transaction-based service without set-up fees or contracts that works with any case or loan management system—no integration required. Your data is received by the POCPro platform in your format, at which point we verify and then our tech-enabled platform generates the POC 410A form. After a thorough in-house quality evaluation, we return the completed form in an editable format, for your legal review and finalization.

POCPro Provides:

RISK REDUCTION: a360inc uses dedicated and specialized professionals to complete 410A forms using our proprietary POCPro technology supported by dedicated quality assurance teams to help eliminate costly human error.

EFFICIENCY AND SCALABILITY the POCPro platform uses extensive industry experience, automation and dedicated staff that allows for efficient completion of 410A forms and provides rapid scalability when volumes escalate.

COST EFFECTIVE CLAIMS FILING transaction-based pricing structure with no long-term contracts required and no integration costs means you only pay for the services you use.
